Board and General Meeting –

The Florida Region AACA Club Board was held April 8 at the All Saints Episcopal Church in the Mary Martha Room.

Opening with Treasurer's Report. Mel motioned acceptance of report – Dana seconded.

Mickey reviewed ideas discussed at the Board Meeting for review and comments by the club members.

It was suggested we reinstate the Annual Auction for the June 10th Meeting. All were in agreement for that to be scheduled and have Don send out a couple of announcements.

A discussion ensued about promoting speakers and service providers for restoration of our cars from local service to dealers of antique and specialty cars – even tours of dealers in our area – Darrel volunteered to reach out to the dealers.

Then Mickey presented a story about the Ball-Stud Hemi engine:

The Ball-Stud Hemi engine was a rare and elusive variation of the legendary Chrysler Hemi engine, which was developed as a cheaper and more mass-market alternative to the 426 Hemi.

Despite being smaller and lighter than its predecessor, the Ball-Stud Hemi still packed a punch with estimated horsepower ranging from 375 to 425. Only a few examples of the Ball-Stud Hemi were produced with the surviving engine currently on display at the National Auto and Truck Museum of the United States. Board.

The Ticket Raffle took in \$42.00 - Larry Cole won the \$21.00 main ticket and 2.00 in exchange for silver dollars.

Then the meeting adjourned with a motion by Larry Mill and seconded by Larry Cole.

Mickey Bryant, Vice President

Jack Scott Model Sale

Can you please let the members know that I will be selling Ford , Lincoln , Chevrolet , and Buick model cars at our next AACA meeting on May 13th. Prices will range from \$ 10 to \$60 each. These models will be of 1/43 , 1/25 , and larger 1/18 scale from the 1940's, 1950's and 1970's .
