Chevy attains the engineer's dream...

1 H.P. PER CUBIC INCH

Every competitive field has certain magic milestones. In track, the four-minute mile. In aviation, the sound barrier. In mountain climbing, the ascent of Everest... and so on.

In American automobile engineering, the magic milestone is this: *one horsepower from every cubic inch of engine displacement!* Chevrolet is the first American production car to achieve this goal; from our 281-cubic-inch V8, with fuel injection* and 10.5 to 1 compression ratio, we pull 283 h.p. Naturally, we're proud. Because this is proof, in cold figures, of the *extra* efficiency of Chevrolet's advanced valve gear, low-breathing manifold and ultra-short stroke. Better still, it is the warranty of superior engineering in every phase of the car's performance—rural-holding, suspension, steering, braking and economy. The real reasons why you get more to be proud of in a Chevrolet—always! . . . Chevrolet Division of General Motors, Detroit 2, Michigan.

Board and General Meeting –

The club board and general meetings were held on May 9th. The general meeting was

called to order by President Charlie Jones after the May 9th board meeting was complete. Don Allen gave the treasury report which was accepted by the club members.

The club president initiated a discussion on planning a club show for the year 2023. The options of scheduling a club sponsored car show was identified by the President. The earliest a car show could be supported was January. But January is considered not viable due to winter weather being a drawback and Henry's Depot would not be available.

A motion to have a "Caffeine and Chrome" event at Gateway Classic Cars be a monthly club meet was proposed and approved. The first event would be on May 28. Another motion was passed to conduct a garage tour on June 4th in Orlando, FL. at Larry and Darrel Cole's car collection with refreshments and ice cream and was accepted. At the end of the discussion, the Fifty-Fifty drawing was held.

Potluck Dinner 04-11-2022

Many Thank to Helen Allen and Betsy Campbell's mom with Betsy and Dena Holt for the Potluck Dinner Preparation and Table Decorations

Car and Coffee May 28

The first club Caffeine and Chrome event was held at Gateway Classic Cars in Lake Mary on May 28. President Charlie Jones reported that a new member for the club was signed up at the event. We look forward to meeting the new member at the June 4th Cole Garage Tour.

Darrel Cole's Garage Tour June 4th

Hi Florida Region members,

Darrel Cole has invited our members to visit his car collections. He has about 7 of his most valuable cars in a beautiful detached garage behind his house. He also has 15-20 very nice cars in his warehouse.

This is the schedule:

We will meet at the warehouse at 9:30 AM, Saturday, June 4. It is located at 2119 Director's Row, Orlando in the Central Parkway complex. This is in South Central Orlando. From there Darrel will lead us to his house which is located at 324 Oak Estates Dr., Orlando. Darrel's phone number is 407-963-9089. After we finish at his house we are going a short distance to Sannon's Café which is located at 4401 South Orange Ave, Orlando. Their phone number is 407-855-9995. They have been in business for 29 years and it is a locally owned restaurant. They have good food at a reasonable price. You order from a menu.

We are hoping that a lot of you will want to do this tour. Please let me know if you are planning to participate. We hope that many of you will drive an old car or truck.

Later I will send another letter to you giving the driving directions.

Don Allen
